Ghi chú

Để diễn tả sự dự đoán là chắc chắn hay không chắc chắn, chúng ta thường dùng các từ sau:

certainly = chắc chắn

probably = có lẽ

Example: It will be certainly a difficult problem.
(Chắc chắn đó sẽ là một vấn đề khó.)
Do you think we will live in the sea in fifty years?
(Bạn có nghĩ chúng ta sẽ sống ở dưới biển trong 50 năm nữa không?)
We will probably live in the sea in fifty years.
(Có lẽ 50 năm nữa chúng ta sẽ sống ở dưới biển.)

- **Word formation (Từ loại)**

Words	Meaning	Related words	
appear (v)	xuất hiện	appearance (n)	non-appearance (n)
		reappear (v)	reappearance (n)
		disappear (v)	disappearance (n)
comfortable (adj)	thoải mái	comfort (v)	comfort (n)
		comfortably (adv)	
convenient (adj)	thuận tiện	convenience (n)	conveniently (adv)
		inconveniently (adv)	
driverless (adj)	không người lái	drive (v)	driver (n)
economical (adj)	tiết kiệm nhiên liệu	economic (adj)	economically (adv)
		economy (n)	economize (v)
function (n)	chức năng	function (v)	functional (adj)

B. GRAMMAR

I. Future simple (Thì tương lai đơn)

- **Cách dùng**

Cách dùng	- Thì tương lai đơn được dùng để nói về một hành động hoặc một sự kiện sẽ xảy ra trong tương lai. **Ex 1**: We will visit you next Sunday. (Chủ nhật tuần tới chúng tớ sẽ tới thăm cậu.) **Ex 2:** I will buy you a new car next week. (Bố sẽ mua cho con một chiếc ô tô mới vào tuần tới.)
	- Để diễn tả một dự đoán **Ex 1:** People will travel by teleporter on someday. (Một ngày nào đó con người sẽ di chuyển bằng phương tiện dịch chuyển tức thời.) **Ex 2:** They will create solar-energy car in the future. (Họ sẽ tạo ra ô tô chạy bằng nàng lượng mặt trời trong tương lai.)

- **Dạng thức của thì hiện tiếp diễn**

(+)	S + will + V (nguyên thể)
(-)	S + will not = (won't) + V(nguyên thể)
(?)	Will + S + V (nguyên thể)? **Câu trả lời** Yes, S + will. No, S + won't.

- **Dấu hiệu nhận biết**

Thì tương lai đơn thường được sử dụng với các trạng từ chỉ thời gian như:

- in + thời gian "trong bao lâu"
- tomorrow "ngày mai"
- next day/ next week/ next month/ next year "ngày tới/ tuần tới/ tháng tới/ năm tới"
- soon "sớm thôi"
- in the future/ in the near future "trong tương lai/trong tương lai gần"

II. Possessive pronoun (Đại từ sở hữu)

1. Các đại từ sở hữu

Đại từ nhân xưng	Tính từ sở hữu	Đại từ sở hữu	Nghĩa
I	my	mine	của tôi
you	your	yours	của bạn
we	our	ours	của chúng tôi
they	their	theirs	của họ

Trần Trường Thành - Zalo 0369904425

he	his	his	của anh ấy
she	her	her	của cô ấy
it	its	its	của nó

2. Cách sử dụng đại từ sở hữu trong tiếng Anh

Các trường hợp dùng Đại từ sở hữu	- Dùng thay cho một tính từ sở hữu (possessive adjective) và một danh từ đã nói phía trước. **Ex 1:** I gave money to my friends and to yours, (yours = your friends) (*Tôi đưa tiền cho các bạn của tôi và các bạn của cậu.*) **Ex 2:** This is my book and that is yours, (yours = your book) (*Đây là sách của tôi và kia lá của cậu.*) **Ex 3:** Her shoes are cheap, and mine are more expensive, (mine = my shoes) (*Giày của cô ấy rẻ, giày của tôi đắt hơn*
	- Dùng trong dạng câu sở hữu kép (double possessive) **Ex 1:** Ms. Hang is a friend of mine. (*Cô Hằng là một người bạn của tôi.*) **Ex 2:** It was the fault of mine that I didn't tell you about that. (*Đó là lỗi của tôi khi tôi đá không nói với bạn về điều đó.*)
	- Dùng ở cuối các lá thư như một quy ước. Trường hợp này, người ta chỉ dùng ngôi thứhai. **Ex:** Yours sincerely: *Trân trọng* Yours faithfully: *Trân trọng*

C. PHONETICS

Sentence stress (Trọng âm câu)

*** Trọng âm trong câu**

- Trong tiếng Anh không chỉ từ có trọng âm mà câu cũng có trọng âm. Những từ được nhấn trọng âm thì thường phát âm to hơn và chậm hơn những từ còn lại. Trọng âm câu rất quan trọng, vì khi nói, từ mà người nói nhấn trọng âm cũng như cách mà họ đánh trọng âm vào cùng một từ, có thể làm thay đổi hoàn toàn nghĩa hàm chứa trong câu nói. Ngoài ra, trọng âm câu còn tạo ra giai điệu, hay tiếng nhạc cho ngôn ngữ.
- Chúng ta thường nhấn trọng âm vào các từ mang nội dung chính trong câu (content words) như là: danh từ, động từ chính, tính từ, trạng từ và các trợ từ phủ định.

*** Những từ thuộc về content words**

Content words	Examples
Động từ chính	sell, give, employ, talking, listening
Danh từ	car, music, desk
Tính từ	big, good, interesting, clever
Trạng từ	quickly, loudly, never
Trợ động từ(dạng phủ định)	don't, can't, aren't

*** Những từ đúng về mặt cấu trúc**

Structure words	Examples
Đại từ	he, we, they
Giới từ	on, at, into
Mạo từ	a, an, the
Từ nối	and, but, because
Trợ động từ	can, should, must
Động từ'to be'	am, is, was
Đại từ chỉ định	this, that, these, those
Từ để hỏi	who, where, what ..

- Chúng ta thường không nhấn trọng âm vào những từ thuộc về mặt cấu trúc (structure words) như là: giới từ, đại từ, mạo từ và trợ động từ.

Trần Trường Thành - Zalo 0369904425

Ex: I am **talking** to my **friends.** (*Tôi đang nói chuyện với các bạn của tôi.*)

She **goes** to **work** by **car.** (*Cô ấy đi làm bằng xe ô tô.*)

- Những từ được in đậm trong những ví dụ trên là **content words** và được nhấn trọng âm. Những từ không in đậm là structure words, không được nhấn trọng âm.

PART II: LANGUAGE

A Phonetic

Exercise 1. Read the sentences below. Underline the sentences.

1. I'm sure robots will cook and clean for us, and we won't do any housework.

18. Jane knows Maths well. She _____ (**help**) you.
19. I don't think that we _____ (**have**) a barbecue today.
20. In 2300, the world _____ (**be**) full of robots.

Exercise 10. Choose the correct completion in the brackets.
1. **A:** Nick really likes _____new bicycle. It is very light and fast.
   How do you like _____?
   B: _____is cheap, but it's very reliable.
2. **A:** Excuse me. Is this _____umbrella?
   B: I don't have an umbrella. Ask Ken. Perhaps it is _____.
3. **A:** When do _____classes begin?
   B: September 2nd. How about _____? When do _____begin?
   A: _____begin on August 23rd.
4. **A:** Mary, _____spaghetti sauce is delicious!
   B: Thank you, but it's not as good as _____.
   A: Oh, no. _____is much better. It tastes as good as Anna's.
   B: Do you like Anna's spaghetti sauce? I think _____is too salty.
   A: Maybe. _____mother makes good spaghetti sauce too. _____is thick and rich.
   B: In truth, making spaghetti sauce is easy, but everyone's sauce is just a little different.

Exercise 11. Complete the second sentences with the correct possessive pronouns.

Trần Trường Thành - Zalo 0369904425

1. This is her pen. → This pen is _____
2. This is my computer. → This computer is _____
3. That is your bike. → That bike is _____
4. That is his room. → That room is _____
5. Their books are on the shelf. → The books on the shelf are _____
6. Those are her cakes. → Those cakes are _____
7. These are our bags. → These bags are _____
8. His pictures are on the wall. → The pictures on the wall are _____
9. My coat is blue. → The blue coat is _____
10. Its cage is over there. → The cage over there _____

Exercise 12. Complete the sentences with possessive pronouns. Created by: Mr Thanh (0369904425)

1. Can I have a pen? I can't find _____.
2. This isn't my jacket. Is it _____?
3. My sister and I are different. My hair is short and _____is long.
4. We see our grandparents a lot. Every Sunday. We come to their house or they come to _____.
5. We often go on holiday with some friends. We go in our car and our friends go in _____.
6. Peter has my phone number and I have _____.
7. This is her car. That car is _____.
8. Your train was on time. _____was late.
9. We go to school together. I ride my bike and she rides _____.
10. We want to sell our cars but they want to repair _____.

PART III: SKILLS

A Listening

Exercise 1. Listen to the short talk [illegible] ch of the following questions.

1. _____ the students go home after school.
   A. All B. A lot of C. Some D. any
2. Some of the students wait in the _____.
   A. classroom B. cafeteria C. community D. school
3. _____ collect some children
   A. The teacher B. Mothers C. Friends D. Sisters
4. A few sporty students _____ go swimming.
   A. usually B. sometimes C. always D. never

Exercise 2. Listen to the conversation twice and decide whether the following sentences are True or False. Created by: Mr Thanh (0369904425)

No.	Statements	T	F
1.	There are many good programs for teenagers.		
2.	Nga likes to watch programs about teenagers in other countries.		
3.	Ba likes sports shows, cartoons and movies.		
4.	Nga is going to watch TV		

B Speaking

Exercise 1. Choose the correct answer A, B, C or D to complete the dialogues.

1. How will we travel to school in the future?
   A. We will go to school today. B. I think we will go by skytran or driverless bus.
   C. I am tired and I won't go to school today. D. We will go to school now.
2. Will flying cars be able to fly across oceans?
   A. It probably won't. B. We certainly will.
   C. I will buy one. D. I will send one.
3. What means of transport will you use to go to school?

A. A solowheel is fun and green to use.
B. I think I will ride a solowheel
C. It is self-balancing.
D. I think I will go to school

4. Do you think travelling by teleporter will become possible soon?
A. He certainly will.
B. It sounds interesting.
C. It probably will.
D. He certainly won't.

5. Will we be able to travel to other planets for holidays?
A. We certainly will.
B. I don't think it is polluting.
C. It is such a green planet.
D. It is such a red planet.

Exercise 2. Reorder the sentences (A-K) to make a conversation.

_____ **A.** Hi, Nam. What are you searching for?
_____ **B.** I'm finding some information on solowheels.
_____ **C.** Electricity. You just need to charge it one time a week.
_____ **D.** No, they won't. It's self-balancing.
_____ **E.** Solowheel? How many wheels will it have?
_____ **F.** You stand on it then turn on the switch and drive away.
_____ **G.** Only one? Won't the riders fall off it? It sounds dangerous.
_____ **H.** So how will a solowheel work?
_____ **I.** Wow, it sounds fun but what will it run on?
_____ **J.** I can't wait to get one.
_____ **K.** It has one wheel.

Exercise 3. Write the suitable sentences in the blanks to complete the dialogue.

A. There is a bus stop just behind the university.
B. I hope you don't mean we should rollerblade to the city.
C. There is even a designated lane for it.
D. How will you get there?
E. Good morning, Jane.
F. That would be wonderful, Andrew.
G. There is not a direct bus into the city.
H. Don't you like using the train, Jane?

Jane: Good mor
Andrew: (1) _____
Jane: Yes. Patrick and I are going to the city to do some shopping and have lunch.
Andrew: That sounds fun. (2) _____.
Patrick: I want to take the train, but Jane prefers to ride her bicycle.
Andrew: (3) _____.
Jane: The train station is far away and riding my bicycle does not cost anything.
Patrick: OK. Why don't we travel by bus, Jane? (4) _____.
Jane: It might take longer. I think we will need to take two buses to the city center.
Andrew: Jane is right. (5) _____. Why don't you use a taxi?
Patrick: That will be quick, but expensive. Can you rollerblade?
Jane: (6) _____.
Andrew: Is rollerblading popular in America, Patrick?
Patrick: Yes. People often use roller-skates. (7) _____.
Jane: In UK we can't do that, the path is just for walking on.
Andrew: I need to go to the train station to buy some tickets. I can give you both a lift in my car.
Jane: (8) _____. Thanks so much.
Patrick: That is very kind of you, Andrew. Let's go to the city center!

C Reading

Trần Trường Thành 0369904425

Exercise 1. Read the following passage and circle the letter A, B, C, or D to indicate the correct answer to each of the questions.

These days, if you want to travel from New York to Beijing, the flight takes about 16 hours. You also have to wait at the airport, and sometimes you have to transfer onto a different airplane. If you add all of that extra time, the trip takes at least 20 hours. But in the future, the trip from New York to Beijing might only take two hours.

Right now, a private company is developing something called ET3. ET3 stands for "evacuated tube transport technology". The capsules use electricity instead of gasoline. For international travel, the capsules can travel at about 6,500 kilometers per hour. That is much faster than airplane - most modern airplanes usually only fly at about 800 kilometers per hour.

There are other advantages to ET3. Because it uses electricity, it is quite clean. In addition, it is much quieter than airplanes and cars. Finally, ET3 tubes and capsules don't require very much building material.

Created by: Mr Thanh (0369904425)

1. How long might it take from New York to Beijing in the future?
A. 16 hours B. 20 hours C. 2 hours D. 22 hours

2. Is a private company developing something called ET3?
A. Yes, it does. B. No, it isn't. C. No, it doesn't. D. Yes, it is.

3. For international travel, the capsules can travel _____.
A. about 6,500 kilometers per hour. B. at 6,500 kilometers per hour.
C. at about 6,500 kilometers per hour. D. at about 5,600 kilometers per hour.

4. Which of the following sentences is **NOT TRUE**, according to the passage?
A. ET3 uses electricity. B. The capsules use gasoline instead of electricity.
C. ET3 is quite clean. D. ET3 is much faster than airplane.

Exercise 2. Read the text and choose the correct answers A, B, C or D.

You used to go to a travel agency to plan your trips, and book air tickets, accommodation and visas. Today, we do all those things by ourselves.

Twenty years ago, you will need to bring along air tickets, vouchers, travel cheques, and a heavy carry-on bag with Walkman, CDs, travel journal and etc. The load is so much lighter now since most stuff can be stored in our tablets or smartphones. Technology is amazing isn't it?

Airport security was a brief back then. They used metal cutleries and gave all passengers bags of toiletries to keep them comfortable during the flight. Now, there are many limitations on things that we can and cannot bring on board. Thanks to "Everyone can fly" tagline, airlines had to reduce their services to stay afloat. So more people can fly and travel now.

Two decades ago, if you wish to call home, you can only do it at an International Telecommunications Exchange and dial you home number with no guarantee that it will get through. These days, all we need to stop by upon arrival is a local SIM card available as you walk out of the departure hall. The Internet makes it easy for you to Skype, Facetime your family just to inform them that you have arrived safely.

1. This text is about _____.
A. travelling in the past. B. travelling now
C. travelling in the past and now. D. travelling tomorrow

2. People used to design their trips _____.
A. with a travel agency bad B. by themselves
C. with their friends D. with their parents

3. One important thing to bring along in your trip now is _____.
A. travel cheques B. your smartphone
C. travel journal D. travel car

4. The number of travellers is _____.
A. the same as in the past B. lower now than in the past
C. higher now than in the past D. high now than in the past

5. When you travel, calling home _____ now.
A. is no longer a problem B. costs a lot of money
C. takes time to get through D. costs a little money

Exercise 3. Read the text and decide if the following statements are True or False or Not Given according to the text

Travelling in the future

Transport today is mostly powered by fossil fuel. The reason for this is the ease of use and the existence of mature technologies harnessing this fuel source. The drawbacks are that they are heavily polluting and rely

Trần Trường Thành - Zalo 0369904425

on limited natural resources. There are many proposals to harness renewable forms of energy, to use fossil fuel more efficiently, or to use human power, or some hybrid of these, to move people and things.

The list below contains some forms of transport not in general use, but considered as possibilities in the future.

A hyper loop is a proposed mode of passenger and/or freight transportation. A hyper loop is a sealed tube or system of tubes through which a pod may travel free of air resistance or friction conveying people or objects at high speed while being very efficient.

A dual-mode vehicle is a vehicle that can run on conventional road surfaces or a dedicated track known as a guide way. Dual-mode vehicles are commonly electrically powered and run in dual-mode for power too, using batteries for short distance and low speeds, and track-fed power for longer distances and higher speeds.

A jet pack, rocket belt or rocket pack is a device, usually worn on the back, which uses jets of gas (or in some cases liquid) to propel the wearer through the air.

1. A hyper loop can convey people or object at high speed.
A. True B. False C. Not given

2. A hyper loop can run on rails.
A. True B. False C. Not given

3. A dual-mode vehicle can run only on conventional road surface.
A. True B. False C. Not given

4. Dual-mode vehicles can run on batteries for short distance and low speeds.
A. True B. False C. Not given

5. A jet pack works like a helicopter.
A. True B. False C. Not given

6. With a jet pack, a user can fly in the air.
A. True B. False C. Not given

Trần Trường Thành - Zalo 0369904425

Exercise 4. Read the text and decide whether the sentences are true (T) or false (F).

What means of transport will look like in 2050? The new types of transport will require new and better sources of energy as well as physical and technological structure. Advanced technology and electric equipment will form the future of transportation.

1. Autonomous Helicopter

Autonomous aircraft is the future of mass transportation. Flying taxis are definitely a dream of everyone if they work in big cities and want to avoid traffic jams.

2. Drone Bus

While flying taxis and autonomous helicopters can transport only a few people, a flying bus can commute a group of forty. Moreover, it takes only an hour to travel on a drone bus from Los Angeles to San Francisco or from London to Paris. Unlike an aeroplane, the drone bus will be able to land and take off closer to city centres.

3. Electric Scooter

Electric scooters will become very popular as a quick and economical way of
Created by: Mr Thanh (0369904425)
Many companies are thinking about improving this transportation mode. For example, it will use artificial intelligence to get people to their favourite destinations. It will connect to smartphones via an app and allows riders to ask and receive voice commands about location or how much battery is left.

Statements	True	False
1. The means of transportation will have better features and technology in the future		
2. One problem of using flying taxis is having traffic jams.		
3. Passengers using drone buses can get on and get off near the city centres.		
4. A drone bus can carry fewer passengers than flying taxis.		
5. You will use mobile apps or your voice to operate the future electric scooter.		

Exercise 5. Tick the text and tick True or False.

Technology is developing rapidly and there have been many interesting transport inventions. Here are some of them.

SKyTrain

SKyTrain "run" (float) 20 feet about around via a magnetic track. It doesn't need a driver as it will be navigated via a smartphone app and just like railway transportations, it will have designated stations where it can stop. It is designed to travel at a maximum speed of 150 mph.

Ryno Micro- Cycle

Unicycle? Yes. Futuristic? Yes. Cool? Hell Yes. On full charge, the Ryno can travel 15 miles at a speed of 10 mph. It weighs 160 lbs and has a maximum capacity of 260 lbs. Runs on 2 replaceable SLA batteries.

Magnetic Levitation Train

A floating train that goes 374 mph max. This "MagLev" technology is already operational and benefiting a lot of passengers in Japan and China and pretty soon South Korea. The idea is pretty similar to the SkyTrain but this holds more passengers and can go further.

Which new inventions will we use in the future? Which ones won't we use? It's hard to know!

Statements	True	False
1. Among the three vehicles, Magnetic Levitation Train is the fastest one.		
2. Among the three vehicles, SkyTrain is the lowest one.		
3. Magnetic Levitation Train can hold more passengers than the others		
4. Ryno Micro- Cycle can travel at a very fast speed.		
5. Ryno Micro- Cycle is navigated via a smartphone app.		
6. SkyTrain is driverless vehicle.		
7. Ryno Micro- Cycle weighs more than 160 lbs		

Exercise 6. Read the following passage, and then tick the correct answers: true (T), or false (F).

Thinking about how we will be travelling in 10 or 20 years is very interesting. Will we still be using planes or will we be flying our cars from Paris to London? Here are some suggestions.

SkyTran

Currently being developed at NASA, SkyTran looks like the monorail at Disney World. Moving at 240km/h and using small amount of energy, it could be the future of city transportation. SkyTran has the passenger capacity of a 6-lane highway.

Flying cars

Zhu Wenxi and Lai Zexin, Chinese students, have designed a solar-powered flying car that doesn't need a runway to take off. If you have about 2 hundred thousand dollars, you will own this vehicle soon.

An electric minibus

The minibus Cameo, designed by Martin Pes, can carry 32 passengers but it is small enough to get its way out of a traffic jam. Its electric motor and low weight mean that it can be recharged in seconds while stopping and it has zero emission.

An eco-taxi

Taxis are bad for the environment and traffic jams. We enter the eco-taxi, and individual taxis form a train powered by solar panels.

1. SkyTran is fast but cannot be used as a means of transportation in the city. _____
2. Flying cars designed by two Chinese students run on solar energy. _____
3. Flying cars don't need a long runway to take off. _____
4. Because it is small, an electric minibus can avoid traffic jams. _____
5. Several eco-taxis can form a line moving together, using solar energy. _____

Exercise 7. Read the passage and write T (True) or F (False) next to the sentences.

The autonomous car

It is the most spectacular revolution. Tomorrow, cars will be able to do without their drivers. "This development will be in stages: we start without feet and then do without hands and eventually without eyes, "says Pascal Brier.

The first two stages have already been completed. Cruise control has existed for several years: drivers can set a cruising speed and remove their feet from the pedals. And some cars now offer driver assistance systems that make it possible to remove the hands from the wheel in specific situations such in traffic jams, or when parking, etc.

The next step? 100% autonomy. Engineers are working to replace human eyes with a multitude of cameras, sensors and lasers that will reproduce the environment in 3D and allow the vehicle to make navigation decisions alone. Popularized by Google and its famous Google car, most manufacturers have begun looking at autonomy and are currently in the phase of conducting major tests on the roads.

1. The autonomous cars will be able to do without their drivers. _____
2. The first two stages of the development are starting without feet and then do without eyes. _____
3. The drivers can set a cruising speed and remove their feet from the pedals. _____
4. Most cars now offer driver assistance systems. _____
5. Engineers are working to replace human hands with a multitude of cameras, sensors and lasers. _____

Trần Trường Thành - Zalo 0369904425

6. The autonomous cars can't make navigation decisions alone. _____

Exercise 8. Read the text, and then answer the questions.

It is a computer drawing of the plane of the future. British engineers and scientists have published plans for a new hypersonic plane called the A2. It will be very fast. At the moment, a flight from London in the UK to Sydney in Australia takes about twenty-one hours but with the A2 the same flight will take about four hours.

The flight will fly at 4,500 kilometers per hour and will fly at an altitude of over 10,000 meters.

It will carry 300 passengers but it won't have any windows because scientists haven't found glass that is strong enough. It will be better for the environment than other planes because the engines won't produce gases that cause pollution.

In the future, will people travel from London to Australia for the weekend? It's possible! But how much will a ticket cost? The planners say that it won't be very expensive – about £2,000. The A2 will be ready for its first flight next year.

1. How long does it take the A2 plane to fly from London to Sydney?

➔ _____

2. What is the speed of the plane?

➔ _____

3. What is the altitude of the flight?

➔ _____

4. How many passengers can it carry?

➔ _____

5. How much does a ticket for the flight from London to Sydney cost?

➔ _____

Exercise 9. Read the text and answer the following questions.

Up, Up and Away!

Martin Halstead is only 19, but he already owns an airline company. Alpha One Airways will make its first flight on 14 December this year. The plane will fly from the Isle of Man (an island between England and Ireland) to Edinburgh, the capital of Scotland. It won't carry a lot of passengers because it is a small plane. The journey will take about 45 minutes. Tickets will be cheap, and passengers won't get any food or drink on the flight. Will the company make money? Nobody knows - but most people think that Martin Halstead will be successful one day.

1. When will Alpha One Airways make its first flight?

➔ _____

2. Where will the plane fly from?

➔ _____

3. Where will it fly to?

➔ _____

4. Will it carry a lot of passengers? Why or why not?

➔ _____

5. How long will the journey take?

➔ _____

6. Will the passengers get any food or drink?

➔ _____

Exercise 10. Read the following passage and circle the letter A, B, C, or D to indicate the correct word or phrase that best fits each of the numbers blanks.

I'm here at Noi Bai Airport to tell you about this amazing flying car. It just (1) _____ here at the airport 15 minutes ago.

So this (2) _____ is call TF-X™. It was designed in 2013. But it will take a couple of years before you can own yours. It's a kind of driverless car and airplane. It has many benefits. With (3) _____ automated system, the car can avoid traffic. It drives at 300 kph — impressive, isn't it? It has four seats, so your family or friends can (4) _____ the ride. The coolest thing is learning to drive a TF-X™ is simple: you'll (5) _____ able to do it just after a few hours!

1.	A. landed	B. landing	C. was landing	D. is landing
2.	A. toy	B. vehicle	C. system	D. seat
3.	A. their	B. its	C. her	D. his
4.	A. go	B. come	C. join	D. buy
5.	A. be	B. was	C. is	D. were

Trần Trường Thành - Zalo 0369904425

D Writing

Created by: Mr Thanh (0369904425)

Exercise 1. Rearrange the words and phrases to make meaningful sentences.

1. people/in/driverless/travel/a few years' time? /in/Will/cars
➔ _____
2. his bike, /He likes/but/he/mine. / doesn't like
➔ _____
3. fuel/of/transport/means/How much /use? /will/these
➔ _____
4. planes/the sun's/Solar/power/to/their engines. /use/energy
➔ _____
5. want/I/have/a teleporter/I can/so/anywhere. /to/go
➔ _____
6. be/faster/and safer, / will / Bullet trains/avoid/and/riders/traffic jam. / can
➔ _____
7. invent / Humans / new / will / of transport / means / the / in / future/.
➔ _____
8. won't / Helicopters / solar energy / use/.
➔ _____
9. you / think / What problems / do / will / future transport / have/?
➔ _____
10. in / Where / years / will / people / fifty / live /?
➔ _____
11. personal vehicle / I / think / we / don't/ will / use / flying car / a / like /.
➔ _____
12. There / be / will / air pollution / less / as / won't / used / be / fossil fuel /.
➔ _____
13. is/ 'Bullet train' / train / a type of / high-speed / Japan / that first came / from
➔ _____
14. use / ships / wind / Wind-powered / as / for / their energy / sailing
➔ _____
15. can / a / read / You / newspaper / while in a / car / driverless /
➔ _____
16. think / I/ is / rail travel / transport method / the best / for the future
➔ _____
17. will / there / be / In the future, / train / high-speed
➔ _____
18. is / It / driverless / a / train.
➔ _____
19. will / It / look like / without / an airplane / wings.
➔ _____
20. will / High-speed trains / help / get around / people / faster and safer.
➔ _____

Exercise 2. Make sentences using the words and phrases given.

1. traffic/a nightmare/visitors/Viet Nam/the first time.
➔ _____
2. There/transport rules/ but/ many people/ not seem/ really interested/ follow/ them.
➔ _____
3. Three or four people/one motorbike/a common sight/ particularly/young people.
➔ _____
4. The traffic/ worst/ rush hours/ when/ everyone/ try/ get to work/ get home quickly.
➔ _____
5. Some people/ ride/ motorbikes/ the pavements/ rather than/ waiting/ a traffic jam.
➔ _____
6. Pedestrians/ get injured/ hit easily/ when/ they/ walk/ the pavements/ cross the roads/ such times.
➔ _____

Tran Truong Thanh - Zalo 0369904425

7. Road users/ very impatient/ quite aggressive/ constantly using their horns/ even shouting/others.

➔ _____

8. Some people/ install/ air horn/ their motorbikes/ this/ really annoying/ other people/ sometimes/ it/ cause/ accidents.

➔ _____

sometimes it causes accidents.

9. Another problem/the increase/the number/cars/the road.

➔ _____

10. More people/own/private cars/it/make/the problem/the traffic jams/worse.

➔ _____

Exercise 3. Rewrite the sentences, using the words in brackets.

1. I am writing to one of my friends. (MINE)

➔ **I am** _____

2. This modern car belongs to him. (HIS)

➔ **This is** _____

3. We went on holiday with some friends of ours. (OUR)

➔ **We went** _____

4. I don't think those trains will be popular here. (WON'T)

➔ **I think** _____

5. Mr Long, one neighbour of ours, is very kind. (NEIGHBOURS)

➔ **Mr Long,** _____

6. In the future, people will use more driverless cars than they do now. (AS)

➔ **Now people** _____

Exercise 4. Write the paragraphs of about 70 words about the advantages of some means of transport, using the prompts given. Start your writing as shown below.

"I think people will like travelling by ..... in the future because it has several advantages. First, ..."

Created by: Mr Thanh (0369904425)

1. a teleporter: very fast, eco-friendly, powered by clean energy, also good for the environment; not take a lot of space; replace all other vehicles, make people around the world closer

2. the hyperloop: designed for transportation between cities, countries and even continents; travel at high speeds through tubes over long distances / because / very low friction; eco-friendly/energy-efficient; the hyperloop / one of the major means of transport / the near future

3. a skyTran: run on electricity with no emission; reduce greenhouse gases, depend less on fossil fuels; reduce traffic jams / because / more people use public transportation / fewer vehicles on the road

1. _____

_____

_____

_____

_____

_____

2. _____

_____

_____

_____

_____

_____

3. _____

_____

_____

_____

Tran Truong Thanh - Zalo 0369904425

_____

_____

Exercise 5. Write a short paragraph about the advantages of a future means of transport, using the cues given.

Safe, Environmentally Friendly Cars

1. cars the future / do less damage the environment and be equipped / better safety / devices / limit / number / accidents and deaths

➔_____

_____

2. engines / be powered / by rubbish-fueled reactor / to make use / all the waste we produce

➔_____

_____

3. petrol / be replaced / fuel cells / separate hydrogen / oxygen / water

➔_____

_____

4. cars / have sensors / detect pedestrians / other cars / and / have / air cushions

➔_____

_____

5. vehicles / "talk" / each other / regulate flow /it / mean / end / traffic jams

➔_____
